Evgeniy Kachan

I am Ukrainian man from Kyiv, 36 years. Married. I have a child 7 years old. Came to EU 1 month ago. I'm staying at my friends in Lieshout, near Eindhoven.

Looking for a job in IT (administrator, programmer, DevOps…) Fast learner. Currently studying Python, Clouds, network administration and virtualization.

Mobile number: +380731541616 – viber, whatsapp, telegram;
Email: pangenya321@icloud.com

Can work in Netherlands officially, I have BS number and work permit.

Education

- Bachelor Kyiv College of Communications with a degree in multi-channel telecommunications;
- Master of the Odessa National Academy of Communications;
- Courses Project Manager;
- English level A2 – pre-intermediate;
- Python courses - in progress.

Life Path:

- cable network designer at Romsat Ukraine (https://romsat.ua/ru/)
- mobile operator base station designer in Kyivstar, Life:)
- Commercial and later Acting Director of the largest Internet provider in the city of Mariupol LLC Format (https://format-tv.net/)
- Deputy Director for the development of the Cosmonova.net subscriber network for physical subscribers (kolo.tv)
- Co-founder of the Ukrainian company for the sale of rolled metal in the territory
- Founder of a small travel company in Ukraine

Skills

- Linux, VMware,
- Telephony Asterisk,
- MikroTik Routing (VPN, Firewall, Nat)
- CCTV Hikvision
- CSS WordPress
- CorelDraw
- Python – in progress

In conclusion

I understand that I may lack the necessary skills, but I want to grow in IT and earn money to live while my country is at war.
